O2 Protect Taxpayer Money

O3 State-Federal Partnership

# Ensuring Community Protection

Federal Immigration and Customs Enforcement (ICE) issues immigration detainer requests to law enforcement agencies holding individuals accused of committing crimes. Since 2016, ICE has issued 10,141 detainer requests with zero being honored due to NYC's sanctuary city policies. Due to exorbitant costs and concerns over safety, more than 30 counties have issued emergency declarations and executive orders to prevent migrants from entering. New York must do better when it comes to protecting our communities.

## Register

Require New York State to register all migrants to assist with background checks and require that all persons voting present voter ID before casting a ballot.

## Opt-In

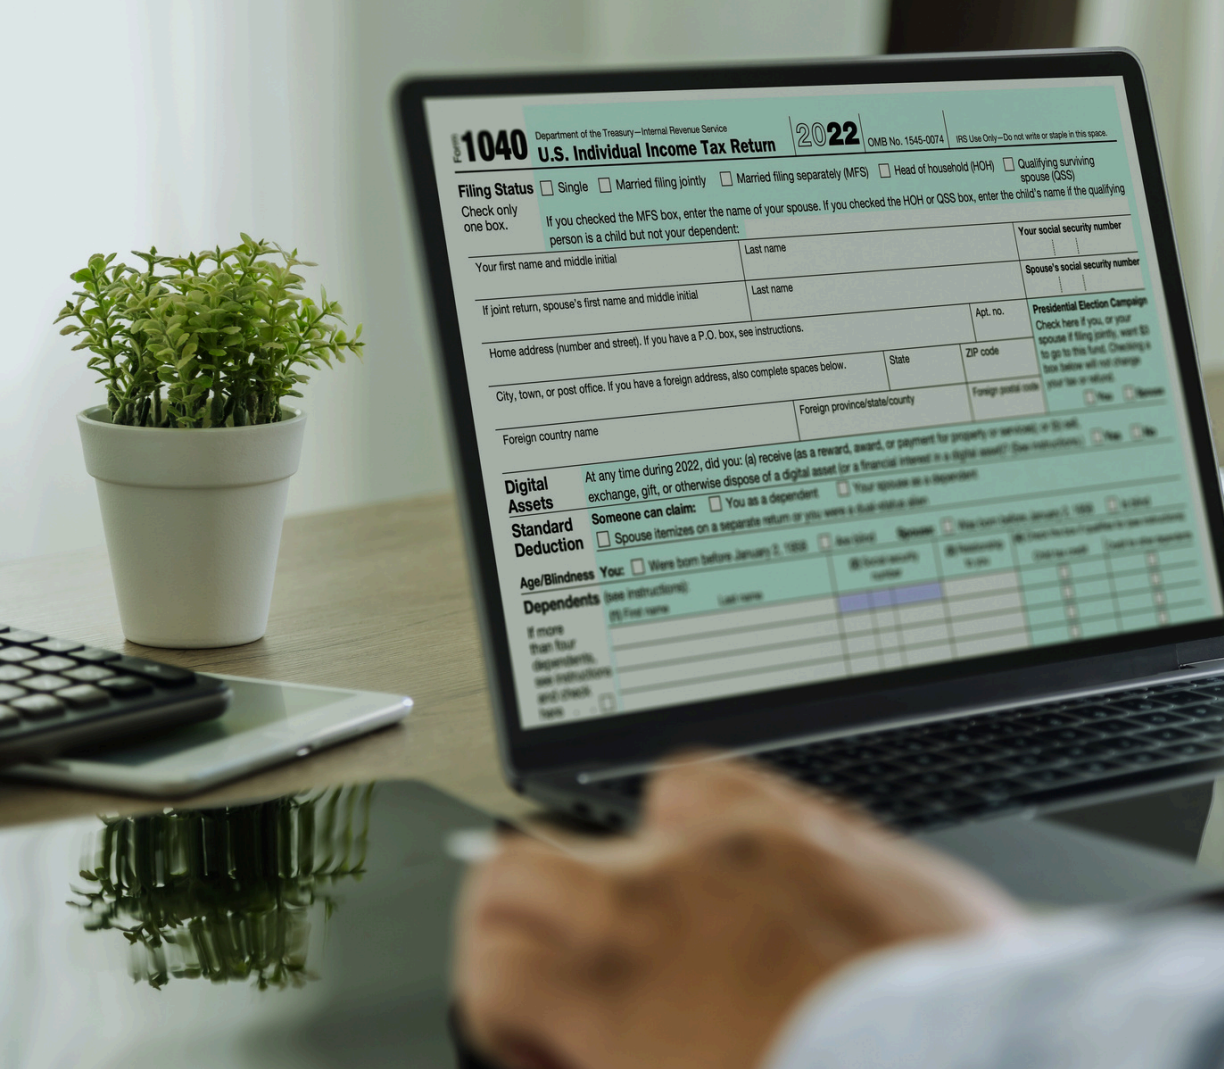

Require that local governments “opt-in” before accepting migrants from other jurisdictions.

## Safety

Punish those who seek to cause harm in our communities by sentencing drug dealers that sell drugs leading to death in line with federal law.

# Protecting Taxpayer Money

---

## Audits

By requiring the Comptroller to audit any and all funds marked for Migrant Aid in New York, we can ensure that your tax money is not being wasted on fruitless and ill-conceived policy.

## Prevention

By proactively banning funding to be used to house migrants in schools, daycare centers, or community-based organizations, we are taking necessary first steps to guarantee safety in our communities.

# State-Federal Partnerships

---

Thus far, New York's corrosive liberal agenda has weakened all federal efforts to stanch the overflow of migrants entering our State. It will require reliable partnerships to solve this crisis and the Assembly Minority Conference knows where to start.

➡ Require the State to notify ICE upon the arrest or conviction of a non-citizen

➡ Ensure cooperation from State agencies/law enforcement while working with the federal government to enforce immigration laws

➡ Prohibit local government actions that would prevent the enforcement of federal immigration laws

➡ Adopt a resolution calling on the federal government to provide financial assistance to the State and to finally address the border crisis it created
