

Ending Antisemitism

Ensuring we end the evil of antisemitism that has infiltrated our college campuses and poisoned the minds of too many

<https://bit.ly/3UZSrMe>

Our Goal

Within hours of the horrific attacks on innocent Israelis by Hamas terrorists on October 7, 2023, the Democratic Socialists of America (DSA) put out an abhorrent statement blaming the attack on the State of Israel whose citizens were murdered in cold blood.

What should concern all New Yorkers is the fact that the statement cites New York Assembly Democrat legislation as an “effective model for pressuring elected officials to stop providing financial support” to one of our most important allies, Israel (“Not on Our Dime Act,” A.6943-A).

The Assembly Minority **REJECTS** this path and endorses a plan that reflects the feelings of the vast majority of New Yorkers to support our Jewish friends and neighbors.

State of Affairs

End Support for Terror Organizations

Calls for violence at college campuses throughout New York State (including those receiving State funding) threatening Jewish students.

Failing to Stop the Violent Rhetoric

With multiple examples of violent rhetoric, including utilizing visuals of AK-47s, chanting “intifada” and banging on library doors while Jewish students hide inside, and classes being canceled due to antisemitic threats, New York Democrats have done little to keep Jewish students safe.

Direct Impact

Neglecting to stop these protests, the policy focus of the left has helped create the environment where “88% of all religious hate crimes targeted Jewish victims.”

Our Plan

Prevent Funding for Antisemitism

- Mandate antisemitism training and prohibit funding colleges that fail to comply
- Prevent funding to campuses and students engaging in antisemitic activities

Address Violent Pro-Hamas Protests

- Prosecute threats of mass harm as hate crimes and make them bail-eligible
- Require arrests of hate crimes
- Reinstate crimes for being masked when in public with six or more persons
- Establish the crime of “Deceptive Wearing of a Mask” during public protests

Support our Allies

- Prohibit State contracts or investment with companies boycotting Israel
- “Not on Our Dollar” plan to prevent not-for-profits from supporting Hamas and nations funding terrorist activity and allowing civil penalties/private right of action for violations
