

# Albany Crime Math

Albany Democrats want to convince you that they're winning the war on crime. They're ignoring the driving factor.

Governor Hochul is taking a victory lap as preliminary data shows an 8% year-over-year decrease in crime Statewide for 2025. This ignores the fact that **crime is up 20%** since the disastrous policies she supported in 2019.

## Since 2019...

- **Violent crime has increased by 12%.**
  - 11% increase in reported Robberies
  - 18% increase in Aggravated Assaults
- **Property crime has increased by 22%.**
  - 18% increase in Larceny cases
  - 136% increase in Motor Vehicle Thefts

As a result of ill-conceived legislation put forth by Albany Democrats, our neighborhoods and streets have become more dangerous with residents feeling less safe in their homes, businesses, and communities.

The Assembly Republican Conference has a plan designed to prioritize protecting our residents and restoring law and order in New York State.

Hold Criminals  
Accountable by  
Fixing Bail Laws

Addressing Raise the  
Age to get Proper Help  
for Juvenile Delinquents

Restoring Faith in Law  
Enforcement

**Here's how the Assembly Republican Conference is addressing Albany's self-created Public Safety crisis:**
